

Governor Statement

Beth Davis

Hi, I have recently joined the team after becoming a new parent at the school with my oldest son starting reception in September.

We live locally in May hill having moved from Cheltenham for the countryside and opportunities for outdoor pursuits. I work as a GP in a practice in the Forest of Dean and have practiced as a doctor across various settings including a stint in emergency medicine in Australia. I completed medical school training at Oxford University and King's College London and graduated in 2013.

During my career I have had multiple roles that involve teaching and training and this is something I have always been passionate about. I am excited for the opportunity to help shape the future of this brilliant Church of England school.
