

Governor Statement

Jennifer Rebbeck

I moved to Huntley in 2002 and I have always been active within the village community through the church, the village hall and the school. Our family own and run a garage in Huntley and we have a strong belief in investing back into our community. I have four children, with my eldest starting at Huntley Primary School in 2010. I have had children continuously at the school ever since, with my youngest now being in his final year. I have always been involved in Huntley School, predominantly through volunteering on trips, supporting events and helping with school life.

I have a degree in History, Archaeology and Heritage Studies and my main interest areas are history and literature. I have also helped run a community playgroup and have experience with the EYFS. Additionally, I have a good understanding of SEN and the challenges that are posed in making sure the curriculum is accessible and adaptable to all.

I have recently joined the board as a Foundation Governor, due to both my Christian faith and desire to give back to the school that has helped shape and form my children's educational journeys. I look forward to both nurturing the ethos of this Church of England school and assisting the shaping of its future.
