

Governor Statement

Alex Davis

Hi, I'm Alex. I currently have 4 children at Huntley Primary. I joined the Governing Body in 2017 when a parent governor position became available. With my children making up roughly 5% of the school populous, I thought the very least I could do was volunteer to help out in any way I could!

My background lies mostly in my family business which I run with my parents and two sisters. Being a manufacturer I have experienced the entire process of the business from product conception to delivery. These skills can easily be transferred into my role as a governor when and where they are needed to hopefully aid and improve the running of the school.

I have a keen interest in sport which has led me to various committee roles within my rugby club, the latest of which is as chairman of the youth section. This has honed my skills in team work and organising multiple people to achieve good outcomes for an organisation.

Although I felt fairly nervous coming into a role dealing with an academic setting, having little experience of this before, the support of the governing body and training offered by the local authority has enabled me to understand and contribute in overseeing the schools policies and outcomes.
